KNIGHTS OF LABOR.

Protest Against the Employment of Only Union Men by the City Filed.

Assembly 3839, Knights of Labor, is u in arms against the ordinance recently passed by the upper house of the council providing that only union men shall be employed on municipal work. The officers of this assembly yesterday filed with the city elerk the following protest against the ordinance, addressed to the members

un to-night:
"To the Lower House, Common Council.
"The Knights of Labor, residents of
Kansas City, Mo., respectfully represent
that there is now pending before your
honorable body and seeking for your approval, an ordinance wherein it is provided that no person shall be employed by
the city unless that person is a member
of some union.

cided that no person shall be come union.

"That the Knights of Labor are a separate labor organization and do not belong to any union; that if said ordinance shall pass and become a law of the city its effect will be, as intended by its promoters, to injure the Knights of Labor and assist in the destruction, as far as possible, of the order.

"We, therefore, protest against all such narrow, bigoted and un-American legislation. Respectfully submitted by assembly 382, Knights of Labor, KANE, M. W.

"Attest: Correct.

SEVENTH WARD ELECTION.

The Mayor Says He Will Not Call It Until

Mayor Davis said yesterday that he would not issue any proclamation for a special election to fill the vacancy in the Seventh ward, until the beginning of the fiscal year in April. He said that no mathe sai year in April. He said that he ters of any great importance were pending in the council at the present time and the funds of the city did not warrant any useless expense. No ordinance providing for the election can be passed until the mayor issues his proclamation.

The annual statement of the Connecticut Mutual Life Insurance Company repeats the familiar story of the company's great financial strength. It shows a surplus of \$8.878.212.78, which would be a million more were is not that the company voluntarily insists upon a more rigid standard for its calculations than is provided for by law, More than this, it has a membership (policy holders) of nearly \$6.000, in itself a big army, and the gross assets on December \$1 last were \$92.234.955.33. The ratio of expenses of management to receipts last year was \$.94 per cont, a ratio materially less than that of any competitor and much less than that of any competitor and much less than half that of most leading companies. The payments for death claims last year were \$4.278.51.99, whill the oustanding insurance is \$156.88.871. The Connecticut Mutual grows with steadiness and robustness.

Postoffice Inspector Paul E. Williams and reputy Marshal Halsterman are investigating the case of the man Barton, who was arrested at Independence for having 330 worth of postage stamps in his possession. Two of the recent robberies are being investigated, and a dispatch from the postmaster of Urich, Henry county, was received yesterday, asking that the man be neld until he came, as he thought he knew him.

Yesterday Mr. Halderman went to Lee's Sammit and found that a person who is believed to be Barton had sold a quantity of stamps there a few days ago. Barton Being Investigated.

Highwayman Hatton Called at Police Head

An ordinance will be introduced in the ouncil this evening providing for a rad-cal change in the manner of disposing of ical change in the manner of disposing of the garbage of the city, along the lines mentioned in the Journal some time ago. The city will be redistricted into districts in accordance with the quantity and char-acter of garbage collected, based on the figures of the last two years, during which the garbage system has been in operation. Heretofore the several wards of the city have been each a garbage district. Another radical change will be the let-ting of the contract for each district to a

have been each a garbage district.

Another radical change will be the letting of the contract for each district to a separate contractor or at least as a separate thickness of the bids and letting the entire contract to one man.

There are wards of the city where the garbage is actually worth a considerable sum to the contractor exting it, and this fact will be taken into considerable in awarding the contractor acting it, and this fact will be taken into consideration in awarding the contractor, and it is expected that a considerable portion of the cost of the removal of the garbage can be paid for in the money which contractors will pay for the privilege of collecting the garbage in such districts, when they are protected as they will be by the city in carrying out their contract. All persons collecting garbage who are not contractors shall have the privilege of disposing of their garbage as they see fit, providing of course that no nulsance is created. The garbage will not be measured and payments made on the basis of the quantity of garbage collected, as heretofore, but each contractor will hid so much for the work of collecting garbage in each district. In the outlying districts the city will, of course, have fo pay for the premoval of the garbage collecting the provideration of the garbage that it is confidently expected that in the downtown districts, where the hotels, etc., are located, the contractors will pay the city for the privilege of collecting the garbage therein.

The ordinance has been prepared very carefully by Health Other Waring and Speaker Stoner, of the lower house.

POLICE PENSION BILL.

It Will Be Introduced in the Senate and

City Counselor Rozzelle completed yes terday the drafting of the proposed police pension and relief law, and duplicates were sent to Senator Lyman and Representative Phipps, at Jefferson City, to be introduced in the senate and house of the Missouri legislature simultaneously. The bill provides that if a policeman is

The bill provides that if a policeman is disabled during the performance of his duty he shall receive one-half pay while disabled. In the event of death the widow of the policeman, if he is married, shall receive one-half pay as long as she remains single. If the policeman leaves no wife, but does leave children, it is provided by the law that the children shall receive a pension amounting to one-half pay until they become 16 years of age. The bill does not directly provide for these things, but gives the city council the authority to appropriate money for such purposes.

If a policeman dies without leaving either wife or children, the proposed law makes no provision for his heirs, as, in that event, the Police Relief Association will pay them \$1.000. In no event will the association pay anything, it is stated by its officers, where the law makes provisions for relief.

A meeting of the Police Relief Association was held yesterday afternoon for the purpose of adopting measures looking forward to the pushing of the relief or pension measure through the legislature.

The Police Relief Association decided to send four members to Jefferson City to work in behalf of the proposed pension and relief bill. Those chosen are Captains Branham and Flahve and Policemen Bray and Kennedy. The committee will ask the consent of Mayor Davis and Police Commissioner Cox to leave the city about Saturday. It has not decided how long it will remain at the capital.

supplying the county with this amount of water.

The county court also used its new rubber stamp "Rejected" on a whole lot of other bills yesterday, some of them being dated as far back as the early part of 1883, and ranging in amounts from 20 cents, the smallest one, up to \$20. Some of these bills had been pigeonholed and were brought to light by County Clerk Critenden in his work of straightening out the very much confused office into which he has recently been inducted. Others seem to have been allowed by the former court and still others have been presented recently. Most of them are for materials alloged to have been used in road and bridge repairing, etc. But the court made short work of them all.

Prosecuting Attorney Jamison and his corps of assistants are very busy men these days. Not only does this session of the grand jury and the current business entail a great deal of work, but they have to get ready for the March term of the criminal court, which peets at Independence on March 4, and also for the term of the circuit court in Clay county, which begins on next Monday, as there are fifteen Kansas City cases on the docket there. Among the more important of the Clay county, cuses are those against ex Justice Latshaw for embezgiement while in office, and against Whitman for felonious assault on Professor Herace Williams, principal of the Chace school, last spring.

Against the Hammerslough Company.

Against the Hammer-lough Company.

A verifiet for the plaintiff was announced in Judge Scarritt's court yesteriny morning in the attachment proceedings of Ignate Epstein and others against the old Hammerslough Clothing Company, and Joseph Lorie, garnishee. The suit grew out of the failure of the Hammerslough Clothing Company, and, while it involved but \$331, there are a number of others hinging upon the same points, which run the amount indirectly involved up to several thousand dollars. The case, which has been a closely contested one, will probably be appealed.

On Trial in Marshall.

On Trial in Marshall,

The suit of P. Schoen, of this city, for \$5.00 against the city for damages to his property on O K creek sewer, is on trial at Marshall, where it was taken on a change of venue. The suit is one of considerable importance, for if Schoen should get a verdict the city would be made defendant in innumerable similar suits. Scoen claims that the sewer empties sewage just above his property and makes the neighborhood unhealthy.

Court Notes.

A suit on account was brought in the circuit court yesterday by the Sloux City Vinegar Company against H. B. Joffee, a Kansas City Hunor dealer, to recover \$1.561.52 for merchandise alleged to have been sold to him.

Judge Slover, in the circuit court yesterday, approved the bond for costs filed by Marvin F. Smith in his election contest against Henry M. Stonestreet. The bond of the contestant in the contest of J. R. Brinkley against Thomas T. Crittenden will be passed upon by the court Saturday. The defendants have made stout opposition to the acceptance of every one of the bonds so far filed, and they are making a fight on Brinkley's bond.

Donnelly gave charse after the man who
had the garments, and at the corner of
Grand avenue was close behind him and
shouted to him to drop the goods or he
would shoot. The ruse was a success and
the garments fell out of the man's grasp,
while he scurried away like a scared rat
and sought safety in the darkness. Donnelly secured the garments and returned
them to the hotel. He would have caught
the man but for an injury to his leg that
left him lame a week since so that he was
unable to run well.

There Are So Many

Hazelton Pianothat it is not an easy matter

> Superlatives are easily written, so we won't use them, but it would be a pleasure to have you pass an opinion, whether you are an amateur or professional, or perhaps better yet if you belong to that larger class who "know a good thing when they hear it." We will put the

HAZELTON

in competition with any piano ing a great deal.
